

Alumni Speak

Mrinal Agarwal
CRISIL
(2004-06)

I completely acknowledge and believe in USMS' foray for nurturing and growing talent and I want to thank my institute for giving me the opportunities and platform to hone and grow my skill set and create a potent mix of talent required to excel in today's corporate world.

Amit Khullar
Tactonomics Pvt. Ltd.
(2000-02)

USMS, as an institute has over the years grown to be a worthy institution, incubator of talent while instilling industry skills. Experiential teaching methodologies and active student involvement has been the core of this sequential development. As an alumni of USMS, we feel proud of these achievements and look forward to contributing to this ever improving journey, to best of our capabilities.

Bindu Oleti
IBM
(1999-2001)

I am writing to provide my support and endorsement to University School of Management Studies, GGSIPU. As the pioneer batch of USMS, I, along with my fellow classmates had the opportunity for tremendous learning and growth during the two years of MBA. Despite the challenges associated with being the first batch, we had the best time learning, collaborating, planning various activities on the campus and interacting with industry and academicians. I particularly want to thank the talented faculty of USMS who acted as friends, mentors, and advisors providing us with the solid foundation to launch our professional careers. My best wishes to the School, faculty, alumni and its current students – may you continue to soar higher.

Chhavi Khandelwal
Evaluateserve
(2015-17)

Working at EY (after completing my Graduation) for a year made me realise the need to pursue MBA in order to further expand my knowledge horizon and realise my full potential. Having been the Academic School Representative of USMS, I can proudly say that USMS has proven to be a path breaking platform for me in terms of personal as well as professional development. With adept faculty members, innovative pedagogy and numerous co-curricular activities of National & International repute, USMS provides enormous opportunities for students to equip themselves with diverse skills and become great leaders in the near future.

Arun Saxena
TCS
(2006-08)

USMS has been the foundation stone of my successful professional career. It has instilled in me the right character, skill set and most importantly the attitude required to succeed in a challenging and fluid business environment.

Palaq Suri
Grail Research
(2015-17)

At USMS, each student gets an opportunity to identify and hone his/her capabilities and skills. The course curriculum and the knowledgeable faculty members help students in enhancing their knowledge base. Being a part of the placement team helped me improve my personality and boosted my confidence level. The infrastructure and other facilities at USMS made my journey of two years all the more easy and enjoyable. USMS gave me a right platform for career advancement and I feel privileged to be its alumnus.
